

Main Feature

1. Small size (15.5x12.1x13.8 in mm) produces a switching capacity up to 20A for high density P.C.Board mounting technique.
2. The contact form construction is 1a/1b/1c
3. The Surge Resistance of BDseries is 10,000V
4. Sealing Construction (Free from dust and solder flux):
BD-SS: Flow Solder Type.
5. The selection of plastic insulation material is designed for high temperature and provides better chemical solution performance.

Application

Air Conditioning, Fridge, Washing Machine, etc Household Appliances
